A hand is holding a small, rectangular piece of white paper with deckled edges. The paper has the words "phone a friend" written in a casual, handwritten font. Below the text is a simple line drawing of a telephone handset. The background is a blurred, warm-toned image of what appears to be a forest or a similar natural setting.

The Impact of Stress in Dentistry:

High levels of stress, anxiety, and burnout are common in our profession.

Higher risk of suicide compared with the general population

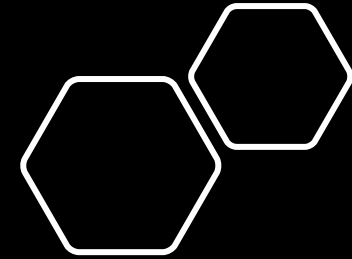

Mental health support is crucial for maintaining our well-being and the quality of care we provide.

Confidential's Role:

Offering a listening ear and signposting to appropriate sources of help eg The BDA, DHST etc

Providing support 24/7

Why don't UK dentists play hide and seek?

Because good luck hiding from all that stress – it always finds you in the end!

How you can help

Raising Awareness:

- Spread the word about Confidential in your practices and networks.
- Encourage colleagues to reach out if they need support.

Fundraising:

- Donations help us train more volunteers and extend our services.
