RSVP: Those wishing to attend must email sec.nwldc@gmail.com
Places are limited, first-come first-served.

We're pleased to invite colleagues to our North Wales LDC Autumn Meeting.

1 MEET DR CLARA DAY

Betsi Cadwaladr Executive Medical Director

We are delighted that Dr Clara Day, the new Executive Medical Director of Betsi Cadwaladr University Health Board, will be joining us.

This is an important opportunity for local dentists to provide direct feedback on the impact of the new NHS GDS contract on practices across North Wales, and **what we expect from the LHB going forwards to mitigate said impact.**

2 SHAPING THE FUTURE

of the North Wales LDC

With Jack Moore taking over as our new LDC Chair, we also want to use this meeting as an opportunity to step back and consider what the LDC should be focusing on in the years ahead.

What should our priorities be? · How can we better support local practitioners? · How can we improve engagement with the profession?

We would really encourage as many colleagues as possible to attend. The strength of the LDC comes from the engagement of the profession it represents — so please come along, share your views and help us shape the next chapter for dentistry in North Wales.

We look forward to seeing you there.
